CALIFORNIA SUNBURST CORONA 36 CHANDELIER

ARCHIVE COLLECTION

From the Remains Archive. From the Remains Archive. A sunburst chandelier suspended from three delicate chains, the solid brass rays reflect light in a starburst pattern on the ceiling and walls and let slivers trace through the faceted bottom. Inspired by the sun motifs in Tony Duquette's "California Sunburst" stage curtain for the LA Music Center (1964) and his San Francisco Canticle of the Sun exhibition. Our Archive Collection consists of the best examples of previous custom projects & historic fixtures from our collection. They are made available as inspiration for recreation or inclusion in custom projects.
