## HAMILTON TWIN SCONCE

### REMAINS LIGHTING CO. COLLECTION

From the Remains Archive. A double-arm solid brass sconce with round backplate featuring concentric ribs which are repeated on the candle cups and waxpans. Light reflecting off the backplate echoes the blur of propeller blades, and the ribbed details recall the body panels and exposed cylinders of the late 1920s H-47 Hamilton plane, which carried mail across the United States. Our Archive Collection consists of the best examples of previous custom projects & historic fixtures from our collection. They are made available as inspiration for recreation or inclusion in custom projects.
