CAST GLASS CHANDELIER WITH BRONZE FITTINGS

VINTAGE COLLECTION

Circa 1920

A large cast opaline glass inverted dome chandelier having darkly patinated bronze hardware. Three runs of the rope-twist stems are broken by lion-faced shields. The stems connect to a hoop detailed with garlands which in turn are connected by three volutes to the ceiling canopy. Due to the antique nature of this fixture, there may be some nicks or imperfections in the glass.
