## DOUGLAS SCONCE

### REMAINS LIGHTING CO. COLLECTION

From the Remains Archive. A single-arm solid brass sconce with tightly stepped round backplate, armbac and torchiere. Inspired by the distinctive 'T' shaped engine mounts of the Douglas Aircraft Company's Dolphin seaplanes. The series of tight steps and slight tapers builds into a dense aesthetic package. Our Archive Collection consists of the best examples of previous custom projects & historic fixtures from our collection. They are made available as inspiration for recreation or inclusion in custom projects.
