

REMAINS LIGHTING COMPANY

INGERSOLL SWING ARM SCONCE

ALAN WANZENBERG COLLECTION

The Ingersoll swing-arm sconce by Remains Lighting has a simple yet elegant form with a minimal in-curving ring supporting its almost full-round white milk glass shade. This wall light features a simple swing arm mechanism, adjustable from two points, one between the arm, the other on the circular backplate. The spherical hand blown and cut glass is secured in place by a delicate bezel.

Designed by Alan Wanzenberg for Remains Lighting based on the study of numerous designs for functional lighting and inspired by many past masters of the Classic modern movement. The refined proportions and exceptional construction evident in this sconce machined from solid brass.

DIMENSIONS

Overall (extended): 10-1/2" h. x 8" w. x 24" d.
Backplate: 4-3/4" diameter
